Upolu is a fast maturing variety for autumn production.

Upolu

Upolu is a class leading variety for autumn production. During heavy periods of saturation it has retained its colour and leaf thickness. Upolu has an upright plant habit and good balance, ensuring at least four leaves are uniform in size at baby leaf stage. Upolu leaves are dark green and oval in shape with a thick texture.

Trial Results

Scores of key traits

Features

- Excellent plant habit
- Dark green leaf colour
- Consistent leaf size and uniformity
- Good leaf thickness

Advantages

- Reduces the number of half cut leaves
- Presents well when packed
- Optimal harvest timing
- Improved processability

Benefits

- Improved bag quality and reduced field loss
- Vibrant colour and presentation in pack
- Maximum yield potential
- Superior packed quality
